

MANJUNATH R

Aspiring Data Analyst / Python Developer • Data Structures & Algorithms • SQL • Machine Learning

Chennai, Tamil Nadu | 8248286086 | mithunmanju023@gmail.com | [LinkedIn](#) | [GitHub](#)

EXECUTIVE SUMMARY

Computer Science Engineering student (GPA: 8.98/10) specializing in Big Data Analytics, with a strong foundation in Python and Data Structures & Algorithms. Hands-on builder of AI-powered applications, from predictive healthcare systems to multilingual travel assistants. Currently deepening expertise in Machine Learning and Deep Learning, with a consistent track record of turning raw data and research into working, real-world software.

SKILLS

- **Programming:** Python (strong foundation, applied Data Structures & Algorithms)
- **Data & Analytics:** SQL, Power BI
- **Libraries & Tools:** Pandas, NumPy, Matplotlib
- **Core CS:** Data Structures & Algorithms, Object-Oriented Programming

PROJECTS

AI-Based Hospital Resource Alert & Optimization System

Feb 2026 – Mar 2026

- Engineered a web application that monitors hospital bed occupancy and medicine inventory in real time, automatically triggering alerts when usage exceeds average consumption thresholds.
- Designed a predictive forecasting module using historical consumption data and centralized bed-management logic, cutting overall clinical and administrative processing time by 45%.

TourMind AI — Multilingual Tourist Assistant

Mar 2026 – Apr 2026

- Built an AI-powered web app delivering real-time contextual travel guidance, interactive chat, and live translation for global travelers navigating unfamiliar destinations.
- Integrated Groq LLMs for context-aware multilingual conversation and automatic native-language detection, paired with AI-driven image analysis to identify landmarks and simplify navigation.

Gesture-Based Cursor Control System

Jun 2025

- Developed a real-time, hand-gesture-controlled cursor using Python and OpenCV, training a custom gesture-recognition model on 100+ images per gesture class.
- Improved cursor movement smoothness by 55% by fine-tuning the gesture-tracking pipeline for precise, low-latency control.

INTERNSHIP EXPERIENCE

Analyst Trainee — Data Analytics | Eagle-HiTech Softclou Pvt Ltd, Chennai

Jun 14 – Jul 14, 2025

- Performed exploratory data analysis (EDA) on real-world business datasets, applying data cleaning, transformation, and visualization techniques using Python (Pandas, NumPy, Matplotlib).
- Translated raw data into actionable insights aligned with client specifications and design briefs, supporting data-driven business decisions.
- Collaborated with the analytics team to convert findings into practical recommendations, strengthening end-to-end data analysis workflow skills; performance recognized as exceeding expectations.

CERTIFICATIONS

- Supervised Machine Learning
- Machine Learning Basics
- Python for Data Science

EDUCATION

B.Tech in Computer Science and Engineering — Specialization in Big Data Analytics

SRM Institute of Science and Technology | GPA: 8.98 / 10
